

SANTOSH MAHATO

Full-Stack Web Developer | Computer Engineering Student

Boisar, Maharashtra • [linkedin.com/in/santoshmah/](https://www.linkedin.com/in/santoshmah/) • github.com/SantoshMahat9 • 8329224214 • santoshkumarmahato284@gmail.com

PROFESSIONAL SUMMARY

Results-driven 3rd-year Computer Engineering student at St. John College of Engineering and Management, Palghar (University of Mumbai), with hands-on experience in full-stack web development. Proficient in HTML, CSS, JavaScript, Angular, MongoDB, and SQL, with practical exposure to .NET backend development during an industry internship. Holds certifications from Infosys Springboard, EY & Microsoft, and AICTE x Meta. Seeking internship opportunities to contribute to live projects, develop RESTful APIs, and grow within experienced engineering teams.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Angular

Backend: .NET (internship experience), Node.js (in progress)

Databases: MongoDB, SQL / MySQL

Languages: C, C++, Java

Tools & Platforms: Git, GitHub, REST API Design & Integration

Concepts: Object-Oriented Programming (OOP), Debugging, Code Review, Agile Teamwork

PROFESSIONAL EXPERIENCE

Intern Developer — Full Stack | Kantascrypt

March 2024 – April 2024

Personal Expense Tracker Project | Onsite

- Collaborated with the company owner and a team of interns to design and develop a Personal Expense Tracker web application from the ground up.
- Designed and managed relational databases using SQL, ensuring efficient storage and retrieval of personal finance data.
- Contributed to backend development with .NET, implementing server-side logic and data processing pipelines.
- Participated in code reviews, debugging sessions, and performance optimization efforts to improve application quality.
- Gained real-world experience in a professional team environment, meeting deliverables within defined timelines.

PROJECTS

Personal Expense Tracker | .NET · SQL · HTML · CSS

Mar 2024 – Apr 2024

- Built a full-stack web application enabling users to log, categorize, and track daily income and expenses.
- Implemented backend logic with .NET and SQL for reliable data persistence and report generation.
- Focused on performance optimization and intuitive UI design to enhance usability.

Web Development Mini Projects (Self-Initiated) | HTML · CSS · JavaScript · MongoDB Jun 2024 – Jul 2024

- Independently built mini full-stack projects to strengthen frontend and backend skills outside the classroom.
- Experimented with MongoDB for data storage and explored Node.js for server-side development.
- Practised RESTful API design and integration patterns aligned with industry standards.

EDUCATION

B.Tech — Computer Engineering | **St. John College of Engineering and Management, Palghar** *Aug 2023 – Apr 2027*
University of Mumbai | NAAC A+ Grade | Current CGPA: 6.5

CERTIFICATIONS & ACHIEVEMENTS

LLM for Young Developers – Foundational Course — AICTE · INDIAai · Meta · Nasscom FutureSkills Prime *Feb 2026*
AI Skills Passport — EY & Microsoft *2025*
Angular API Development (Industry Credit Course) — SJCEM × Kantascrypt *Nov 2025*
Metaverse Training (Employability Enhancement Program) — SJCEM × IOFT *Nov 2025*
Metaverse Workshop — Institute of Futuristic Technologies (IOFT) | Ministry of MSME, Govt. of India *Nov 2025*
Database and SQL — Infosys Springboard *Oct 2024*
Technical Paper Presentation — Anveshnam 2024 — St. John College of Engineering and Management *Mar 2024*
